To comply with the Chinese medicine policy of the Government, TWGHs initiated a number of projects aiming at enhancing our Chinese medicine services. One of the projects is to collaborate with The Chinese University of Hong Kong and Hospital Authority in the establishment of a Chinese medicine clinical research and services centre at Kwong Wah Hospital, providing a base for teaching and implementation of scientific evidence-based research in Chinese medicine; and the provision of charged Chinese medicine specialist outpatient services and day services to the public. The centre commenced operation on 12th November 2001. The centre was relocated to Tung Po Court in mid 2016.
