### 東華三院推出「健腸計劃」資助項目

本院一直為大眾提供優質的醫療服務，亦提倡「預防勝於治療」的理念。東華三院內視鏡中心在2017年成立，為大眾提供可負擔的一條龍大腸癌篩查服務。早前中心進行統計，發現有超過5成接受腸鏡檢查人士的大腸內發現瘻肉，而當中6成7個案其瘻肉更屬腺瘤，日後會變為大腸癌；當中，19人更確診患有大腸癌，逾3成（6人）在家族史上亦有大腸癌紀錄。此外，根據臨床數據顯示，有大腸癌家族史人士，患癌風險比一般人高2倍。本院遂推出「健腸計劃」，以鼓勵公眾尤其「高危一族」及早接受腸鏡檢查，避免因經濟問題而錯失發現癌症的機會，長遠更可減輕公立醫院和社會的醫療負擔。

此計劃全數資助有經濟困難的人士；而於本院內視鏡中心進行檢查並發現有大腸癌的人士，本院更會為其直系親屬提供半費資助的腸鏡檢查服務。東華三院內視鏡中心是首間由非牟利團體營運的內視鏡中心推出此類型資助計劃，對象由40歲開始，較政府的「大腸癌篩查計劃」的合資格人士年輕10歲，而半費資助予患大腸癌人士的直系親屬更沒年齡限制，覆蓋面更闊。

#### TWGHs Launched the "Colon Health Programme" Subsidy Scheme

TWGHs has been providing quality medical care for the public and promoting the concept of "prevention is better than cure". In 2017, TWGHs Endoscopy Centre (EC) was established to provide affordable, through-train colorectal cancer (CRC) screening services for the public. With reference to a study conducted by the Centre earlier, over 50% of people who have undergone colonoscopy have polyps in the colon, among which 67% are adenomatous polyps and could become cancerous. Among those, 19 people were actually diagnosed with CRC and 31.6% (6 people) have a CRC family history. In addition, according to clinical figures, people who have CRC family history were 2 times more likely to be diagnosed with CRC. Hence, the Group introduced the "Colon Health Programme", encouraging the public especially the "vulnerable population group" to perform colonoscopy so that they would not be deprived of early CRC screening due to financial issues. It may also relieve the medical burden of public hospitals and the society in long term.

The Programme will fully fund people with financial difficulties. If CRC is found after screening at the Centre, half subsidisation of the colonoscopy service will even be provided to their immediate family members. TWGHs Endoscopy Centre is the first NGO-operated EC to launch subsidy scheme of similar kind. Beneficiaries start at age 40 which is 10 years younger than those in the government funded "CRC Screening Programme". There are even no age restrictions in the half subsidisation on immediate family members of people with CRC family history, widening the scheme's coverage.

#### TWGHs Launched the First "Fortune Loft — Youth Co-Living Project"

The Group has revitalised its property located at the junction of 56 Fuk Tsun Street and 1 Lime Street, into community shared resources. The 4th and 5th floors of the property were remodelled into a co-living space furnished with traditional features and modern designs, and the first "Fortune Loft – Youth Co-Living Project" has been launched to relieve the housing needs of young people by offering accommodation at an affordable price. The "co-living" model encourages young residents to communicate, exchange views and look after one another. Meanwhile, successful applicants are required to join a designated "Saving Programme" and "Good Neighbours Scheme", with an aim to nurture their saving habits and encourage them to contribute to the society through visits and community activities.

### 東華三院幼稚園及幼兒園響應衛生署「健康飲品在校園」約章

為減少幼童從飲品中攝取過量糖分，本院屬下16間幼稚園及10間幼兒園已簽署由衛生署發起的「幼營喜動校園計劃」於2018/19學年推出的「健康飲品在校園」約章。於約章期內的3個學年，各幼稚園及幼兒園承諾鼓勵幼童飲用清水、為幼童提供健康飲品、不提供添加糖或含糖量較高的飲品，亦不以食物作獎賞。

#### TWGHs Kindergartens and Nursery Schools Support the "Healthy Drinks at School" Charter by the Department of Health

To reduce the intake of excessive sugar from drinks for preschool students, TWGHs 16 kindergartens and 10 nursery schools have become a signatory of the "Healthy Drinks at School" charter launched by the Department of Health's "StartSmart@school.hk Campaign". With effect from the 2018/19 school year for 3 upcoming school years, all kindergartens and nursery schools are committed to encouraging young children to drink water and preparing healthy drinks for them. They have also vowed not to provide drinks with added sugar or relatively high sugar content, and not to use food as rewards.
