贈醫施藥 免費醫療

免費醫療服務

東華三院自 1870 年創院以來，一直堅持為有需要人士提供免費醫療服務，即使面對醫療成本不斷上漲的壓力，東華三院仍然竭力維持「贈醫施藥」的傳統，為市民提供免費醫療服務，包括：

- 免費病床 600 張；
- 免費普通科和專科門診服務，並按政府的收費標準代求診者向政府繳付費用；及
- 免費中醫普通科門診服務，當中部分開支由衛生署資助。

2023/2024 年度免費醫療服務的總支出預計為 5,300 萬元，受惠人次約 70 萬。

捐款予撒瑪利亞基金

東華三院董事局捐款 200 萬元予撒瑪利亞基金，為有需要的病人提供援助。

Mr. FAN Hung Ling, Henry, SBS, JP (right 2), Chairman of the Hospital Authority (HA), accompanied by Dr. KO Pat Sing, Tony, JP (right 1), Chief Executive of HA, received the cheque on behalf of the Foundation.

資助購買高價先進醫療用品

醫療科技日新月異，醫療服務及其成效不斷提升，引入微創手術服務即屬一例，然而，有關服務所需用品費用高昂，並且屬於醫院管理局的病人自費項目，部分病人未能負擔。有見及此，東華三院董事局撥款資助有需要的病人購買所需的醫療用品，包括介入放射及微創手術的用品，以及抽取乳房組織的刺針，讓有需要的病者得到適切治療。

病人互助組織

本院非常支持全人治療，包括身、心、靈的治療，因為病人除了身體上承受痛楚外，還要應付心靈以至精神上的壓力和情緒問題。因此，東華三院董事局撥款資助屬下醫院的病人互助組織，舉辦不同的健康教育和社交活動，讓患者與家人互相交流、互相扶持，其中包括腎病、糖尿病、乳癌、中風及紅斑狼瘡等病人互助小組。

長者免費鑲配活動假牙計劃

本院獲得善長 250 萬元捐款，資助有需要的長者鑲配活動假牙。資助計劃於 2021 年 12 月開始接受申請，至 2023 年 12 月共有 287 位長者受惠。

Provision of Free Medical Services

Free Medical Services

TWGHs has been providing free medical services for the needy in the community since its inception in 1870, and despite escalating medical costs in recent years, it still strives to uphold the tradition of providing free medical services, which include:

- 600 free beds;
- free general and specialist outpatient services by paying the hospital charges for the patients according to the Government fee scale; and
- free Chinese medicine outpatient services with partial subvention of operating expenses from the Department of Health.

The estimated expenditure of free medical services in 2023/2024 was about \$53 million, serving approximately 700,000 visits.

Donation to Samaritan Fund

TWGHs Board of Directors donated \$2 million to the Samaritan Fund to aid the patients in need.

Subsidising Expensive and Advanced Medical Devices

Advances in medical technology result in ongoing enhancement in the quality and efficacy of medical services. A case in point is the introduction of minimal invasive surgery services. Unfortunately, the devices required for these services are expensive self-financed items under the Hospital Authority, making them unaffordable to some patients. In light of this, TWGHs Board of Directors allocated funds to subsidise needy patients in purchasing necessary medical supplies, including consumables for interventional radiology and minimal invasive surgery, and needles for breast biopsy, so that the needy patients can afford to receive appropriate treatments.

Patient Support Groups

TWGHs fully supports the concept of a holistic approach to treatment, through which patients' physical pain, psychological and spiritual discomfort and the stress caused by illnesses can all be well addressed. TWGHs Board of Directors subsidised the patient support groups under the Group's hospitals, so that they could organise health education and social activities to facilitate mutual support and sharing among patients and their families. These support groups include the mutual aid groups formed by patients of renal diseases, diabetic mellitus, breast cancer, stroke, and systemic lupus erythematosus, and more.

Denture Sponsorship Scheme for the Elderly

A donation of \$2.5 million was received to sponsor denture making for the eligible elderly. The Project has started to accept applications since December 2021, and as at December 2023, it benefited a total of 287 elderly persons.

設立東華三院樂儀癌病治療資助基金

癌症已成為香港的頭號殺手，但現代醫學仍有不少有效藥物及療法，足可抑制腫瘤生長、減低復發率、增加患者生存機會或延長患者壽命。可惜新藥物及療法往往價格高昂，在公立醫院屬於自資購買的醫療項目，部分病人因無力負擔而錯失治療機會。有見及此，善心人士發起成立「東華三院樂儀癌病治療資助基金」，秉承東華三院贈醫施藥的傳統，讓患者及家屬在危病徬徨之際得到支援。本院設有基金管理委員會及審批小組，監察及審批基金的申請。基金為有臨床需要及符合資格的癌症病人，提供政府安全網未能資助的藥物治療。基金於 2017 年推出，截至 2024 年 1 月，基金共資助了 232 名乳癌病人購買自費治癌藥物，資助總額超過 3,400 萬元。

中醫癌症治療助醫計劃

中醫善於扶正固本，全身調理，能改善中晚期癌症治療的不適症狀，增強患者免疫力，提高生活質素及長期療效。為協助有經濟困難的腫瘤科病人接受中醫治療，本院於 2008 年成立「中醫癌症治療助醫計劃」，資助合資格病人接受中醫治療，每年資助額約 200 萬元。截至 2023 年 12 月，該計劃本年度共批核大約 600 宗個案。

腎病病人助醫計劃

由 2010 年起，本院「腎病病人助醫計劃」開始資助末期腎衰竭病人接受血液透析治療，每年支出約 120 萬元，資助約 4,500 宗血液透析服務。

中風人士復康資助計劃

本院撥出 100 萬元捐款於 2022 年 6 月成立中風人士復康資助計劃，為合資格的申請者提供基本治療費半額資助，本年度內有多位中風病人受惠。

診斷及治療助醫計劃

承蒙中國銀行（香港）的慷慨捐款，東華三院醫療中心（北角）推行多項助醫計劃，涵蓋香港常見的疾病，包括：乳癌、骨質疏鬆症、睡眠窒息症及嚴重哮喘，資助有臨床需要的病人接受醫學診斷和治療，確保市民不致因為經濟困難而延誤甚至失去接受診斷治療的機會。助醫計劃至今已為 615 名有需要的病人提供資助，資助額大概 110 萬元。計劃效果顯著，成功為過半數受惠者偵測疾病，讓他們及早跟進治療，包括：乳房組織抽取及化驗資助：65 名受惠者中有 28 人（43%）確診罹患乳癌，X 光骨密度檢查資助：約 57%（305 人）受惠者確診患有骨質疏鬆症，睡眠窒息症診斷資助：15 名受惠者中，60%（9 人）被診斷患有嚴重阻塞性睡眠窒息症，20%（3 人）患有中度阻塞性睡眠窒息症，33%（5 人）患有輕度阻塞性睡眠窒息症。

Setting up TWGHs MK Cancer Treatment Subsidy Fund

While cancer is the top life-threatening killer across the territory, there are medications and therapies which can control the advancement of tumour, reduce relapse rate, increase the chance of survival or prolong patients' life in modern medicine. Unfortunately, as these new medications and therapies are expensive self-financed items in public hospitals, some patients simply cannot afford them and thus miss the chance of treatment. Inspired by the Group's tradition of free medical services, various generous donors initiated the setting up of "TWGHs MK Cancer Treatment Subsidy Fund", which aims at providing support for needy cancer patients and their families in despair. TWGHs set up the Management Committee and Assessment Panel for the Fund to monitor and assess applications. The Fund provides eligible cancer patients with clinical needs subsidies on cancer therapy currently not covered by the Government's safety net. Subsequently, the Fund was launched in 2017. As of January 2024, the Fund had subsidised 232 breast cancer patients to acquire self-financed medications for cancer treatment, with a total subsidy of over \$34 million.

Chinese Medicine Cancer Treatment Assistance Fund

Chinese medicine is good at strengthening and regulating the whole body, in that it can relieve treatment-related side effects in advanced cancer stages, enhance the immunity of cancer patients as well as improve their quality of life and treatment's long-term efficacy. In 2008, the Group established the "Chinese Medicine Cancer Treatment Assistance Fund" to provide financial assistance for eligible cancer patients to acquire Chinese medicine treatment, with an annual subsidy of approximately \$2 million. As of December 2023, the Fund had approved around 600 applications this year.

Renal Patient Assistance Fund

Starting from 2010, the "Renal Patient Assistance Fund" of the Group has been providing financial assistance for late-stage renal failure patients to acquire haemodialysis treatments. More than \$1.2 million is spent every year to subsidise around 4,500 haemodialysis treatments cases.

Rehabilitation Sponsorship Scheme for Stroke Patients

TWGHs allocated \$1 million from its public donation to sponsor half of the costs of basic rehabilitation treatment for eligible stroke patients. The project has started to accept application since June 2022. Within the year, many stroke patients benefited from this scheme.

Patient Assistance Programmes for Diagnosis and Treatment

Thanks to the generous donation from the Bank of China (Hong Kong), TWGHs Medical Centre (North Point) runs patient assistance programmes on various common diseases in Hong Kong, including breast cancer, osteoporosis, sleep apnoea, and severe asthma, with the aim to provide subsidy for needy patients on diagnosis and treatment so that they will not delay or miss the chance of diagnosis and treatment due to financial difficulties. So far the programmes have provided assistance for 615 patients with around \$1.1 million subsidy. The outcomes of the above subsidy programmes are positive, detecting diseases in over half of the beneficiaries and enabling them to receive early treatment: Subsidy Programme on Breast Biopsy: 28 out of 65 beneficiaries (43%) were diagnosed with Breast Cancer; Subsidy Programme on X-ray Bone Densitometry Examination: about 57% (305 patients) of the beneficiaries were diagnosed with Osteoporosis; Subsidy Programme on Sleep Apnoea Diagnosis: among the 15 beneficiaries, 60% (9 patients) were diagnosed with Severe Obstructive Sleep Apnoea (OSA), 20% (3 patients) with Moderate OSA and 33% (5 patients) with Mild OSA.
