Background

Tung Wah Group of Hospitals (TWGHs) have been providing Chinese medicine services since 1870. We strive “to heal the sick and to relieve the distressed”. To align with the Chinese medicine policy of the Government, we collaborate with local universities and the Hospital Authority (HA) to establish Chinese medicine service centres. We aim at providing high-quality Chinese medicine specialist services and promoting evidence-based clinical researches. With the signing of Memorandum of Understanding between TWGHs and The University of Hong Kong (HKU) in 1997, we determined to contribute to the development of Chinese medicine in Hong Kong.

Tung Wah Group of Hospitals – The University of Hong Kong Chinese Medicine Clinic cum Training and Research Centre (Central & Western District) (formerly named as Tung Wah Hospital - The University of Hong Kong Clinical Centre for Teaching and Research in Chinese Medicine) was established in 2002. It is the first Chinese Medicine Centre for Training and Research operated under the tripartite collaboration modal involving a non-governmental organization, HA and a local university in Hong Kong.
